

# ENHANCE THE EFFICIENCY OF YOUR RPS STRATEGY

---

LEARN HOW OUR COMPREHENSIVE AUDITS AND FRACTIONAL  
EXECUTIVES CAN GROW YOUR SUSTAINABILITY BUSINESS

## RENEWABLE PORTFOLIO STANDARDS (RPS)

Renewable Portfolio Standards have been implemented by many local and state governments to incentivize customers to take advantage of clean energy sources. Unfortunately, the everchanging energy options, regulatory obligations, market pricing, compliance standards, and other hurdles make RPS Management an overwhelming task. From comprehensive, unbiased audits to a Fractional Executive who brings proven expertise to your team, Roots offers the right solution that fits your unique RPS Management strategy and budget.

Take advantage of our full suite of RPS account services including:

- Detailed Audits
- REC Procurement
- Compliance Reporting
- Legislative Tracking
- Pricing and Valuation Curves
- Position Management

## WE HAVE THE ANSWERS TO ALL YOUR RPS QUESTIONS

- What is the true cost of RPS in our portfolio?
- What is the current value of our renewable trades?
- How can we leverage market opportunities and still maintain confidence in our current strategy?
- How does pending legislation affect our portfolio?
- What does our net open position look like by state?
- Are we monetizing our RPS position?

## UNBIASED RPS AUDITS

Our project-based RPS audits give you the complete, unbiased story of your RPS accounts - exposing potential problems, as well as identifying opportunities for new processes and standards that can increase revenues. Our RPS Audits will:

-  Create a NOP report to compare vs. suppliers
-  Investigate deficiencies in REC position
-  Evaluate curves to ensure right values
-  Review all retail and wholesale contracts

## SEAMLESSLY INTEGRATED FRACTIONAL EXECUTIVE

Working remotely, in-office, or a hybrid of both (depending on your company's needs), our RPS team serves as a seamless extension of your energy management desk. Our Fractional Executive is the perfect solution for retailers that may not have the time, team or budget to manage their RPS strategy. Most importantly, our Fractional Executive services are scalable to meet your exact needs, budget and office locations.

## LET'S GET STARTED!

Roots Clean Energy is a sustainable energy consultancy that develops and operates industrial-grade solar power systems, wind, community solar, energy storage solutions and advanced power plant control systems.
